### EDUCATION

**B.Sc. Information Systems**  
Addis Ababa University  
Expected Graduation: 2027

### SKILLS

#### LANGUAGES

JavaScript • Python • Java  
C++ • C# • PHP HTML5 • CSS3

#### FRAMEWORKS

React • Node.js Express.js • Django Bootstrap • Tailwind CSS

#### DATABASES

MongoDB • MySQL

#### DEVOPS & TOOLS

Git • GitHub • Docker Nginx • Linux

#### METHODOLOGIES

Agile / Scrum UI/UX  
Fundamentals Version Control (Git)

### SOFT SKILLS

Team Collaboration Time Management Adaptability  
Problem-Solving Continuous Learning

### LANGUAGES

English — *Fluent*

### PROFESSIONAL SUMMARY

A results-driven Senior Software Developer with a strong foundation in information science from Addis Ababa University, specializing in full-stack web development, system design, and database-driven applications. Proven ability to transform complex technical requirements into clean, scalable, and maintainable software solutions that deliver real-world impact.

*Driven by a commitment to engineering excellence, continuous learning, and a passion for building products that matter — seeking to contribute to world-class engineering teams at industry-leading organizations.*

### CORE COMPETENCIES

- Full-Stack Web Development
- RESTful API Design & Integration
- Scalable System Architecture
- Database Design & Optimization
- Performance & Security Engineering
- Agile / Scrum Delivery
- Cloud & Containerization (Docker)
- UI/UX-Driven Frontend Development

### FEATURED PROJECTS

#### Car Management Platform | Full-Stack Web Application

- Designed and developed a comprehensive car management web application with full CRUD functionality and user authentication.
- Implemented a responsive frontend using React and Tailwind CSS with optimized performance across all device types.
- Built a robust RESTful API backend using Node.js (Express) and integrated MongoDB for efficient data persistence.
- Containerized application using Docker for consistent deployment and integrated Nginx as reverse proxy.

**Technologies:** React • Node.js • Express • MongoDB • Docker • Nginx

#### Business Web Application Suite | Enterprise Platform

- Architected and delivered multiple business web platforms featuring real-time data processing and secure user management.
- Developed backend systems in Python (Django) with MySQL databases, achieving high scalability and security compliance.
- Collaborated in Agile cross-functional teams, consistently delivering projects on time

with clean, well-documented code.

**Technologies:** Python • Django • MySQL • Bootstrap • JavaScript • Git

## TESTIMONIAL

*"A dedicated and talented software developer with strong analytical skills and a passion for building reliable software systems."*

— Academic Supervisor, Addis Ababa University
